

Additional Information

Mexican Plums, Persimmon, Jujubes, Mulberry and Pomegranate trees can be found along the Edible Arbor Trail. Signs along the trail educate individuals about the types of trees and shrubs present and when they can expect to enjoy the fruits and nuts on each tree.

Make your business a
Green Business
by supporting the Missouri City
Edible Arbor Trail!

What is the Edible Arbor Trail?

Are you a business or organization interested in contributing to an innovative green opportunity in our city parks? You can be a part of our region's first Edible Arbor Trail. This tasty trail features several groves of hardy trees and shrubs that produce edible fruits and nuts. There are several sponsorship and public relations opportunities available.

Where is the Edible Arbor Trail?

The Edible Arbor Trail is located along Missouri City's Oyster Creek Trail. The trail begins near Mosley Park, 3333 Farm to Market 1092 and ends at Cartwright Road near the YMCA. The first 1.21 miles of the Oyster Creek section of the Missouri City Trail System was opened and dedicated in August of 1997.
